

Your Words Matter!

Set yourself up for your best success by observing what you say most often during daily activities. The words you're saying are the words your dog is learning. If you notice you aren't saying anything during these activities, then start talking! You can use the blank boxes at the bottom to add your own situations.

What is happening?	What am I saying?
My dog needs to go to the bathroom.	
My dog and I are playing / my dog is trying to get me to play.	
It's time for my dog to eat.	
My dog needs water.	
I'm taking my dog somewhere fun that she loves (e.g. walk, park, doggy day care, etc.)
